At the same time, we focus on the protection of the safety, safety and health of our employees, people involved in our operations, our customers and the public. These commitments are documented in our security, safety, environmental and product security policies. The management is responsible for ensuring that systems are underway that meet the framework. The systematic and disciplined approach of Exxonmobil has produced significant improvements, but we know that there is also a risk of complacency. We conduct periodic exercises with bodies/officials/regulatory staff to help guarantee compliance with the applicable requirements. Tsing Yi Terminal LTI-Free Year since 1998 thanks to the resilient commitment of all Tsing Yi Terminal workers to manage the company through the operations' supplement management system, Tsing Yi Terminal has recorded a zero lost accident since 1998. We launched A maximum -with the fundamental review of our operations and implemented a system that today guides every operational decision that we make daily. Exxonmobil requires the application of the OIMS framework with a particular emphasis on design, construction and operations. The Best Practice Hkes Ergonomics prize is designed to promote the research and application of Hong Kong ergonomics and Asia by recognizing the companies that adopt practical ergonomics and professionals who lead high quality ergonomics projects. We use these management systems to identify, trace and report the metrics they demonstrate and guide our performance. Completely hdâ ¢ âiation "I have published another one. We begin to see a HD television class war - with the full hd crowd that smiles with the compliance of The Povers Old HD Ready Lot? It certainly has a bit of a debate. My CRT 1080i TV will be Tackle ports from 75% LCD lÃ outside the quality department of the images, "has published a commentator.Telly Wars" to which Ã is told, the specification HDTV Ã91080i or 720p - both are HD, BY DEFINITION. HDness. These policies are implemented through a disciplined management framework called the Integrity Management System operational program (OIMS). Since the implementation of the Office Ergonomics Program at ExxonMobil's Hong Kong office in 2009, there have been no recordable time-loss incidents, medical treatment incidents, or work incidents with restrictions related to musculoskeletal disorders in our office. Local emergency responders, such as the Hazmat from the Fire Department, participate in these exercises to help us work together to respond to an incident. ExxonMobil Hong Kong received the award for outstanding excellence in the fields of scientific merit, innovation, utility and applicability. We conduct regular exercises to test plans and train our response personnel. As such, we are committed to providing the energy needed to feed the worldÂÂs progress in a safe and responsible manner. We regularly assess potential threats to our operations. The scope, priority and the pace of implementation of the management system should be consistent with the risks associated with the activity. The OIMS framework comprises 11 elements. This recognition reinforces our strong commitment to creating a safe and healthy workplace where no one is harmed. ExxonMobil uses the term ³ ÂIntegritÃ of the transactions Ã Âto address all aspects of its business These can have an impact on staff and process safety, health and environmental performance. Company Topic Community Article Our security personnel participate in security related seminars, training courses and industry forums to improve established risk management methodologies, capabilities threat assessment and security applications Our health policy communicates Company expectations for identifying and assessing health risks associated with our operations that have the potential to affect our employees, contractors, or the public.
